1. Release notes 6.5.1 addendum

The following is an addendum for chapter 1.1. *Migrating from version 6.5 to 6.5.1* of EB GUIDE product line 6.5.1 release notes.

► To migrate EB GUIDE TF plugins from 6.5 to 6.5.1, change the return value of the method GTF_PLUGIN_-GET_VERSION() from GTF_PLUGIN_PRODUCT_STRING to GTF_PLUGIN_VERSION_STRING.

The correct return value looks as follows:

```
GTF_PLUGIN_SO_SYMBOL const char * GTF_PLUGIN_GET_VERSION()
{
    return GTF_PLUGIN_VERSION_STRING;
}
```
