

Elektrobit

EB cadian Sync

Secure software updates over the air (OTA)

www.elektrobit.com

EB cadian Sync is a reliable, flexible, and secure toolchain for all types of software updates over the air. It enables OEMs to perform software updates on ECUs and supports various operating systems. Elektrobit's solution is supporting Adaptive AUTOSAR and enables remote software and firmware updates within the entire in-vehicle system.

The update process with EB cadian Sync

Your benefits in using EB cadian Sync

Efficiency
